PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building role-based, database-driven applications using Python (Django, Flask), JavaScript, and MySQL/SQLite3. Delivered three end-to-end academic projects and completed a cloud-focused development internship, combining strong front-end fundamentals with back-end API and database design. Known for learning new frameworks quickly, writing clean maintainable code, and collaborating effectively across cross-functional teams — seeking a Software/Web Development internship to apply and grow these skills in production environments.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, Responsive UI Design
- Backend: Python, Django, Flask, RESTful API Integration
- Databases: MySQL, SQLite3, Relational Schema Design
- Programming Languages: C, C++
- Tools & Platforms: Git, GitHub, VS Code, Cloud Architecture Fundamentals

PROJECTS

EduConnect — Online Education Platform with Role-Based Access

- Architected and built a full-stack education platform with distinct student, instructor, and admin roles, enforcing secure permission-based access across the application.
- Engineered backend logic in Django/Flask backed by a relational database to manage courses, users, and content, streamlining data flow between the three user roles.

Online Blood Donation Management System

- Built a full-stack web application connecting blood donors and recipients, enabling donor registration, real-time search, and request tracking.
- Designed a normalized MySQL/SQLite3 schema to manage donor records, blood-group inventory, and donation history, improving data accuracy and retrieval speed.

AI-Powered Chatbot Assistant

- Developed an intelligent chatbot in Python to automate responses to user queries, reducing manual query handling and improving user accessibility.
- Integrated NLP-based logic to generate dynamic, context-aware responses, enhancing overall user engagement.

INTERNSHIP EXPERIENCE

Py-Cloud Architect (PCA) Intern

Indra Institute of Education (IIE) Hopes, Coimbatore

- Gained hands-on exposure to Python-based cloud architecture concepts and end-to-end application development workflows.
- Applied backend development and database design principles to real-world project scenarios under senior mentorship.

EDUCATION

Bachelor's Degree

2023 – 2026

- Government Arts College, Coimbatore — CGPA: 7.8

Higher Secondary Education

2020 – 2023

- SKN Government Higher Secondary School, Coimbatore — Percentage: 82%

CERTIFICATIONS

- Salesforce Developer — Agent Blazer Champion Course
- Foundations of Coding with Python
- Fundamentals of Web Development
